Management Discussion and Analysis Report

Economic Overview

According to the International Monetary Fund, the global economy is expected to grow at 3.4% in 2016-17 compared to 3.1% in 2015-16. The pick-up in global activity is projected to be gradual.

The Indian GDP growth expanded to 7.5% in previous financial year due to improving economic sentiments and is expected to pick up from 2016-17. The currency movements and interest rates continue to be risks for growth.

Ferro Alloys Industries

Ferro-alloys are critical additives in the production of Iron & Steel and the fortune of Ferro Alloys Industry is directly linked with the growth of Iron & Steel Industry. The product mix of Ferro Alloys consists of bulk Ferro Alloys viz., Ferro Manganese, Silicon Manganese, Ferro Silicon, Ferro Chrome, Charge Chrome, etc. and noble Ferro Alloys viz., Ferromolybdenum, ferrovanadium, ferrotungsten, ferro-silicon magnesium, ferro-boron and ferro-titanium.

India accounts for around 7-8% of the world's Ferro Alloys production. India emerged as a preferred supplier of Ferro Alloys on account of abundant availability of key resources comprising chrome ore and manganese ore, trained and cost-effective manpower and favourable location.

Stainless steel industry

The Indian steel industry retained its position as 4th largest Steel producing country in the World. The steel production is expected to be 115 million tonnes in 2016-17. The domestic consumption of Stainless Steel is likely to increase by 9 to 10 % in 2016-17.

Risk, Opportunities and Threats

The Company manufactures Ferro Alloys as well as Stainless Steel. In FY 2015-16 the challenge for the Ferro Alloys industry stemmed primarily from an excess of supply over demand. The Stainless Steel business was severely impacted by the increase in cost of raw material, slow demand, tough competition, cheap imports from China and high interest rates. The domestic consumption of Steel is likely to increase by 9 to 10 % in 2016-17. New Government initiatives like Make in India, building Smart Cities, focus on sanitation facilities, investments in Roads and Railways etc. are likely to benefit the Steel Industry. Further, as the Ferro Alloys industry is dependent on the Steel Industry, any growth in Steel Industry will have a direct bearing on the Ferro Alloys Industry.

Electrical energy is one of the major inputs in production of Ferro Alloys and high power tariff is a great threat for the Ferro Alloys Industry. High power cost has already impacted us severely and that led us to bring our Plant at Haldia under suspension of work since 01.07.2015. Apart from electrical energy, the industry also faces challenges in procuring quality raw materials in time.

The Company has a risk Management framework in place which is designed to identify, assess and monitor various risks related to key business and strategic objectives and lead to the formulation of a mitigation plan. All identified risks are categorised based on a matrix of likelihood of occurrence and impact thereof and a mitigation plan is worked out to extent possible

It is hoped that the new government who already initiated so many steps for the betterment of Indian economy would certainly recognize the challenges arising out of price increases of power and input materials and take steps to address them urgently to enable the Ferro alloys and Steel producers to survive & compete in the domestic as well as international markets.

Segment-wise performance

Ferro Alloys

During the year under review the Company has produced 58456 MT of Ferro alloys against 134755 MT of Ferro alloys in previous year registering a decline of 56.62% over previous year. “Annexure B” to the Independent Auditors’ Report

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the Internal Financial Controls over financial reporting of M/s. ROHIT FERRO-TECH LIMITED (“the Company”) as of March 31, 2016, in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining Internal Financial Controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate Internal Financial Controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's Internal Financial Controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing issued by ICAI and prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls system over financial reporting and their operating effectiveness. Our audit of Internal Financial Controls over financial reporting included obtaining an understanding of Internal Financial Controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s Internal Financial Controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

“Annexure B” to the Independent Auditors’ Report

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of Internal Financial Controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate Internal Financial Controls system over financial reporting and such Internal Financial Controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

In making those risk assessments, the auditor considers Internal financial control relevant to the Company’s preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Holding Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. “Annexure A” to the Independent Auditors’ Report

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the Internal Financial Controls over financial reporting of M/s. ROHIT FERRO-TECH LIMITED (“the Company”) as of March 31, 2016 in conjunction with our audit of the Consolidated Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining Internal Financial Controls based on the internal control over Financial Reporting criteria established by the Company considering the essential components of Internal Control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate Internal Financial Controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's Internal Financial Controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing issued by ICAI and prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls System over financial reporting and their operating effectiveness. Our audit of Internal Financial Controls over financial reporting included obtaining an understanding of Internal Financial Controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s Internal Financial Controls System over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's Internal Financial Control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with Generally Accepted Accounting Principles. A Company's Internal Financial Control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with Generally Accepted Accounting Principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

“Annexure A” to the Independent Auditors’ Report

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of Internal Financial Controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls over financial reporting to future periods are subject to the risk that the Internal Financial Control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate Internal Financial Control system over financial reporting and such Internal Financial Controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
